

ACADEMY MEMBER BENEFIT

Get Needed CE — **FREE**

PROFESSIONALISM & PUBLIC POLICY WEBINAR RECORDINGS

Growing Library of Professionalism and Public Policy Resources Is **FREE** for Members

A valuable benefit of Academy membership is free and unlimited access to the Academy's entire—and growing—library of professionalism and public policy webinars. This robust archive dates back to September 2007 and features

experts in actuarial professionalism and all actuarial practice areas.

The professionalism resources cover a wide range of topics, including updates on actuarial standards of practice, real-life case studies on ABCD requests for guidance, interpretation and application of the U.S. Qualification Standards and continuing education, and the Precepts of the Code of Professional Conduct.

Public policy webinars include topics from all practice areas, such as casualty reserve ranges as they apply to statements of actuarial opinion, implementation of the Affordable Care Act, solutions for assuring lifetime income, alternatives for pension cost recognition, and regulatory issues for small insurance companies.

Academy members can earn sought-after professionalism and relevant practice-area-specific continuing education (CE) credits by listening to these recorded webinars; these credits can be applied toward the annual required CE, as detailed in the U.S. Qualification Standards (Section 2.2).^{*} By having free access to this library, Academy members can save substantially on fees they may ordinarily pay for professionalism and other practice-area-specific CE from other sources.

AMERICAN ACADEMY of ACTUARIES

Objective. Independent. Effective.™

^{*}Continuing education credits from listening to recorded webinars will not count as an "organized activity" under the USQS but can satisfy some CE requirements.

AMERICAN ACADEMY of ACTUARIES

Objective. Independent. Effective.™

Professionalism and public policy webinars are a popular resource for essential information and CE credits for actuaries from across all practice areas.
