

Comment 24—8/19/2021—9:55 p.m.

I would like to thank the members of the Committee on Qualifications and the Board of Directors for the extraordinary effort that clearly went into the revision of the qualification standards. In general, I think they're appropriate and clear.

May I suggest, however, that section 2.2.7 of the second draft is more than a little condescending toward Enrolled Actuaries? Will the Academy be issuing guidance to actuaries who walk that they should look both ways before they cross the street?
